

HAZ Petroleum Global India

Your Trusted Partner in Petroleum

Corporate Statement

HAZ Petroleum Global India (HPGI) is an Indian energy and infrastructure company focused on delivering international-standard petroleum, gas, lubricant, chemical, and infrastructure solutions to the Indian market.

With strategic expertise in the energy sector and a long-term infrastructure vision for India, HPGI is focused on developing a reliable, scalable, and sustainable downstream energy ecosystem.

Leadership Message

At HAZ Petroleum, we believe energy is not just a commodity—it is the foundation of industrial growth, transportation, infrastructure, and national development.

Our vision is to build a future-ready energy platform that combines international quality standards, advanced logistics, strategic storage capabilities, and customer focused innovation.

Through HPGI, we are building a trusted Indian energy brand that delivers performance, reliability, safety, and long-term value to businesses, industries, transport operators, infrastructure developers, and government linked projects.

We are committed to supporting India's growing energy and infrastructure requirements through reliable products, efficient supply chains, and long-term infrastructure development.

Management, HAZ Petroleum Global India

HAZ Petroleum Global India

About the Group

HAZ Petroleum Global

Corporate Overview

- Headquartered: India
- Industry: Petroleum Products, Energy Trading, Lubricants, Industrial Chemicals & Infrastructure
- Business Focus: Manufacturing, Trading, Storage, Distribution, and Energy Solutions
- Operational Vision: India, global energy corridor

Core Strengths

- Strategic energy sector expertise
- International sourcing network
- Petroleum & petrochemical expertise
- Industrial-grade quality systems
- Scalable logistics and storage planning
- Long-term infrastructure development vision

Vision

To become a recognized energy and infrastructure group delivering world class petroleum, gas, lubricant, and industrial solutions with a strong commitment to quality, sustainability, technology, and operational excellence.

Mission

To provide safe, efficient, and internationally compliant energy products and infrastructure solutions that support industrial growth, transportation, construction, agriculture, and emerging energy sectors across India and international markets.

Why Businesses Choose HPGI

International Foundation

Built around international energy sector expertise and globally recognized industry practices.

Infrastructure-Oriented Approach

Focused not only on trading but also on storage terminals, industrial yards, logistics facilities, and future distribution infrastructure.

Customer-Focused Solutions

Flexible supply models for industrial, commercial, transport, infrastructure, and government-related sectors.

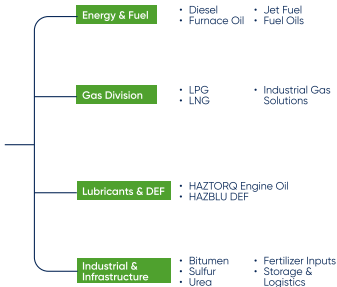

Integrated Product Ecosystem

Fuel, gas, lubricants, chemicals, bitumen, sulfur, DEF, and fertilizer-related products under a unified energy platform.

Quality Assurance

Products sourced and supplied according to recognized international specifications and industry standards.

HPGI**

Petroleum Products

Fuel Solutions

- EN590 10ppm Ultra Low Sulfur Diesel
- Diesel Gas Oil
- Furnace Oil
- Fuel Oil (Various Grades)
- High Sulfur Fuel Oil (HSFO)
- Jet Fuel (JP54 / Jet A1)
- Marine & Industrial Fuel Solutions

HAZ Petroleum Global India

LPG & LNG Solutions

HPGI is developing a dedicated LPG & LNG business vertical focused on industrial, commercial, transportation, and energy infrastructure applications.

Proposed Areas

- LPG Bulk Supply
- LPG Cylinders & Industrial Distribution
- LNG Industrial Fuel Solutions
- LNG Transportation Fuel Network
- Cryogenic Storage & Handling
- Gas Infrastructure Partnerships

Future Ready Energy Infrastructure for Industrial India

Flagship Environmental Product

HAZBLU DEF

Diesel Exhaust Fluid (DEF) engineered for modern BS6 and Euro-compliant diesel engines.

Product Positioning

- High-purity urea-based DEF
- Reduces NOx emissions
- Improves SCR system performance
- Suitable for trucks, buses, generators, construction equipment, and industrial diesel engines

Variant	1 Litre	5 Litre	10 Litre	20 Litre	210 Litre Drum	1000 Litre Drum
Application	Passenger Vehicles	SUVs / Pickup Vehicles	Commercial Utility	Fleet Operations	Industrial Use	Bulk Distribution

HAZTORQ Engine Oils

Product Categories

- 0W-20
- 5W-30
- 5W-40
- 10W-30

- 15W-40
- 20W-50
- CI-4 / CH-4 / CK-4 grades

- Hydraulic Oils
- Gear Oils
- Transmission Fluids
- Compressor Oils
- Greases

- 1 L
- 3 L
- 4 L
- 5 L
- 7.5 L
- 10 L
- 20 L
- 26 L
- 50 L
- 210 L Drum

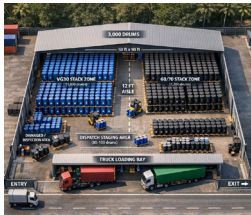

Industrial Supply Portfolio

Bitumen Division

- Bitumen 60/70
- Bitumen 80/100
- VG Grade Bitumen
- Road Construction Bitumen
- Industrial Waterproofing Grades

Application Sectors

- Road & Highway Projects
- Construction & Infrastructure
- Agriculture
- Chemical Processing
- Industrial Manufacturing

Industrial Supply Portfolio

Sulfur Division

- Granular Sulfur
- Industrial Sulfur
- Fertilizer & Chemical Grade Sulfur

Urea & Fertilizer Inputs

- Industrial Urea
- DEF-grade Urea
- Agricultural Urea Supply
- Fertilizer Raw Material Solutions

Infrastructure Development

HPGI is planning a robust energy storage and logistics ecosystem to support efficient product handling and nationwide distribution.

Proposed Infrastructure

Bulk Storage Facilities

- Petroleum product storage
- DEF bulk storage systems
- Bitumen drum & bulk storage
- Industrial chemical storage

Future Expansion

- Coastal storage terminals
- Inland distribution depots
- LNG / LPG storage partnerships
- Multi-product energy logistics hubs

Industrial Yard Facilities

- Container handling area
- Heavy vehicle access
- Loading & unloading bays
- Inventory & dispatch management
- Fleet movement coordination

Integrated Supply Chain

Procurement

Global sourcing from strategic energy markets

Quality Control

Inspection, testing, and specification verification

Storage

Safe handling and inventory management

Logistics

Road, containerized, and bulk transportation solutions

Distribution

Industrial, commercial, and infrastructure sector supply

Customer Support

Technical assistance and responsive delivery coordination

Our Commitment

HPGI is committed to implementing internationally aligned systems for:

- Product Quality Assurance
- Operational Safety
- Environmental Responsibility
- Storage & Handling Standards
- Transport Safety Procedures
- Continuous Improvement Processes

Target Sectors

Transportation & Logistics

Fleet operators, transport companies, commercial vehicle networks.

Construction & Infrastructure

Road contractors, infrastructure developers, project engineering firms.

Manufacturing & Industrial

Factories, processing plants, industrial utilities, heavy equipment operators.

Agriculture & Fertilizer

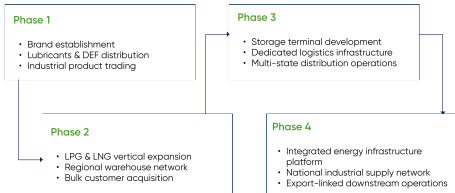

Agri-input distributors, fertilizer blending units, rural supply chains.

Energy & Utilities

Power generation, industrial heating, gas-based energy applications.

Strategic Expansion Vision

The HPGI Principles

Integrity

Transparent and ethical
business practices

Innovation

Technology-driven product and
infrastructure development

Reliability

Consistent supply and
dependable service

Sustainability

Responsible operational
and environmental
practices

Partnership

Building long-term relationships
with customers, suppliers, and
stakeholders
